

Safety data sheet

Natural - Acrylic Wood Stain with Wax

1. Identification of the substance/preparation and the company/undertaking

- 1.1. Product name:**
Natural - acrylic wood stain with wax
- 1.2. Manufacturer, supplier**
Gemix shpk
Address: Str. Bekim Berisha nn, Peje 30000, Kosove
- 1.3. Product Information**
info@gemix.co
- 1.4. Emergency telephone number**
+381-39-433-754
- 1.5. End use:**
Wood industry

2. Composition / information on ingredients

Chemical classification:
Description: Coat of special water-based emulsions and additives.

3. Hazards identification

Statements of hazard

The product does not require a hazard warning label in accordance with EC Directives. Frequent contact can lead to skin and eye irritation, especially if product is allowed to dry out. Observe the usual precautions when handling chemicals.

4. First aid measures

General Information

Remove contaminated, soaked clothing immediately and dispose of safely

Inhalation

Move to fresh air. If symptoms persist, call a physician.

Skin

Wash off with soap and water. If symptoms persist, call a physician

Eyes

Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Call a physician immediately

Ingestion

If swallowed, seek medical advice immediately and show this container or label. If conscious, drink plenty of water. Do not induce vomiting without medical advice

Notes to physician

Main symptoms

None known.

Treatment

Treat symptomatically

5. Fire-fighting measures

Suitable extinguishing media

foam. dry powder. carbon dioxide (CO₂). water spray

Extinguishing media which must not be used for safety reasons

Do not use a solid water stream as it may scatter and spread fire

Special exposure hazards arising from the substance or preparation itself, its combustion products, or released gases

Under conditions giving incomplete combustion, hazardous gases produced may consist of carbon monoxide carbon dioxide (CO₂)
Combustion gases of organic materials must in principle be graded as inhalation poisons

Special protective equipment for fire-fighters

Wear self contained breathing apparatus for fire fighting if necessary.

Environmental precautions

Dike and collect water used to fight fire

Other Information

This is a water-based product and presents no particular fire or explosion hazard.

6. Accidental release measures

Personal precautions

Contaminated surfaces will be extremely slippery. Avoid contact with the skin and the eyes.

Environmental precautions

Do not allow material to contaminate ground water system. Do not flush into surface water or sanitary sewer system.

Methods for cleaning up

Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust). Keep in suitable, closed containers for disposal. Contaminated

equipment (brushes, rags) must be cleaned immediately with water.

Dispose of in accordance with local regulations

7. Handling and storage

Protection - fire and explosion:

No special protective measures against fire required.

Storage

Material storage

Protect from frost. To maintain product quality, do not store in heat or direct sunlight.

Keep at temperatures

between 5 and 25 °C

Technical measures/Storage conditions

Keep tightly closed in a dry and cool place. No special technical protective measures required.

Incompatible products

No special restrictions on storage with other products

Storage class

Non-combustible liquids

8. Exposure controls

Engineering measures

Provide adequate ventilation. Where reasonably practicable this should be achieved by the use of local exhaust

ventilation and good general extraction

Personal protective equipment

General advice

Avoid contact with skin and eyes.

Hygiene measures

Wash hands before breaks and at the end of workday. When using, do not eat, or drink or smoke. Take off all contaminated clothing immediately. Wash contaminated clothing before re-use.

Eye protection

safety glasses.

Hand protection

Chemicals resistant gloves

Suitable material rubber gloves

Type These types of protective gloves are offered by various manufacturers. Please note the manufacturers' detailed statements, especially about the minimum thickness and the minimum breakthrough time. Consider also the particular working conditions under which the gloves are being used.

No irritation on any grounds.

9. Physical and chemical properties

Appearance

Form

liquid

Colour

according to color chart

pH

7.0 - 8.0

boiling point	100 °C
specific gravity	1,0

10. Stability and reactivity

Stability	Stable under recommended storage conditions
Conditions to avoid	do not freeze.
Materials to avoid	materials that react with water
Thermal decomposition	No decomposition if stored and applied as directed.
Hazardous reactions	No hazards to be specially mentioned.

11. Toxicological information

Additional toxic information: When used and manipulated in accordance with the specification, this product has no harmful effects to our experience and information available to us.

12. Ecological information

Eco-toxicity	not observed	
mobility	Volatile organic compounds (VOC)	< 1 gr / l

Ecological data are determined by analogy

13. Disposal considerations

Dispose of according to regulations.

14. Transport information

No need for special labeling during transport

15. Regulatory information

Labelling in accordance with EC directives

The product does not require a hazard warning label in accordance with EC directives / the relevant national laws

16. Other information

For further information, see:

For more information, consult the Technical Data Sheet

Sources of key data used to compile the datasheet

Information contained in this safety data sheet is based on owned data and public sources deemed valid or acceptable.

Further information

This information is based on our present state of knowledge. It shall describe our products regarding safety requirements and shall not be construed as a guarantee or statement of condition and/or quality.
